

# Consultation Clinics

George Jeffrey Children's Centre offers consultation clinics as a pathway to access an Occupational Therapist, Physiotherapist, or Speech-Language Pathologist (service provider). During this 30-minute appointment, you will have the opportunity to ask questions, get support, and learn strategies to help address one primary concern.

Caregivers and/or any person best able to support the child/youth (i.e., Teacher, Facilitator, Student Support Person [SSP], Respite Worker, Early Childhood Educator etc.) are invited to schedule an appointment.
